

January 2016 Report

1. Introduction

Warrior Women is an organization that was formed in 2014 with the vision of empowering girls using education. We believe that education is a basic need and right of every child and our partnership with Entebbe Early Learning School has shown great results in the development of the child both academically and socially.

Initially, our focus was on the girl child, finding her place in her community, equipping her with knowledge, advocating for her equality and supporting her in her physical development. However, we noticed that empowering girls has to go hand in hand with sensitizing boys around the issue of equality. Both girls and boys should live in a society where both sexes are thought of in order to achieve a balanced society. Therefore, due to the overwhelming presence of boys in need of support too, we extended our scope to all the children at Entebbe Early Learning center to achieve social balance.

The purpose of this publication is to give an update and accountability of our activities for the year 2016 and our focus for 2017.

2. 2016 Activities

I. 17th October 2016

Movie: Secret Life Of Pets

Part of our social activities is to create the same opportunities for the children at Entebbe School that children their age enjoy. "All work

without play...” and with that notion we showed ‘Secret Life Of Pets’ and the children had a wonderful time.

Women Caring and Counseling Center, Kireka (WCCCK)

In efforts to broaden WAWO’s outreach, a visit was taken to WCCCK to assess their work and how WAWO can help further their vision.

Women Caring and counseling center is an N.G.O and community based organization Founded by a compassionate woman Serwanga Maureen.

Part of their mission is to educate, support, & Empower young women who have faced challenges and found themselves as outcasts in their communities. WCCC have been involved in so many activities regarding the community issues and have received so many recognitions by different Institutions for the great work done.

Many girls aren’t able to attend tertiary education and places like WCCCK have made it possible for such girls to attain practical skills such as hair dressing and in turn these skills are used to source employment.
